

Summary Notes - Effective Revision

1. Revision Basics

- Review important concepts regularly.
- Focus on understanding, not only memorizing.

2. Key Learning Methods

- Summarize lessons using your own words.
- Create diagrams and short notes.
- Practice examples and questions.

3. Exam Preparation

- Review difficult topics first.
- Solve past exams.
- Check answers and improve weak areas.

4. Memory Improvement

- Repeat information over time.
- Connect new ideas with things you already know.

5. Final Reminder

- Good preparation reduces stress.
- Small daily improvements lead to success.
